Large 4-sided planer
GMX-5001

Soundproofing & Safety Device

- Prevent danger with full cover

Option

- Thread chamfering device
- Grading device
- High-speed feeding device

GMX-5001 Machine specifications			
Width of horizontal planer cutter			15～490mm
Vertical planer spindle cutting height			5～310mm
Automatic single-side cutting height			5～400mm
Height of the table top			780mm
Planer spindle speed			5000min-1
Material feed speed	Cutting speed		4～20m/min
	Auto-return speed		20m/min
Plane shaft dimensions	1・4-axis		φ100×500mm Enshin Block(HC Type)
	2・3-axis		φ125×310mm Enshin Block(HC Type)
Plane shaft slide			1・4-axis:250mm/2-axis:150mm/3-axis:125mm
Motor spec	Plane shaft		1-axis: 3.7KW With Brake
			2,3,4-axis: 3.7KW×3
	Hand-feed unit	Feed	1.15KW
		Lift	0.4KW
		Front and back	0.2KW
	Auto-feed unit	Feed	0.4KW
		Front and back	0.1KW
	Automatic feed unit	Top feed	0.4KW
		Bottom feed	0.75KW
		Lift	0.75KW
	3-axis positioning	Front and back	0.2KW
Dust collection diameter	1・4-axis		φ150mm
	2・3-axis		φ125mm
Air pressure	3 Air Float		0.6Mpa
Machine dimensions	Length × Depth × Height		9302.5mm×1790mm×1670mm
Machine mass			4100kg
Option			
High power Motor	1・4-axis		5.5KW With Brake
Material transfer device			○
